

## **Crisix – Full HD**

Crisix are back with a new album titled Full HD.

Crisix from Barcelona, Spain is one of the most hardworking young bands on the scene. Their DIY ethics, extraordinary live performance, and positive message brought them to perform hundreds of shows all over the world. They released 5 studio albums. 'The Menace' (2011), 'Rise...Then Rest' (2013), 'From Blue to Black' (2016), 'Against the Odds' (2018), 'Crisix Sessions: #1 American Thrash' (2019), and 'The Pizza EP' (2021). Their 6<sup>th</sup> studio album Full HD will be released on April 15<sup>th</sup> 2022.

Crisix were among the most active bands during the pandemic. In January 2020 they finished the 14 days sold-out Spanish club tour and immediately started working on new music and projects. In April 2021 Crisix performed a special show for 'Hellfest From Home' recorded and aired by Arte TV. In September 2021 Crisix released 'The Pizza EP' along with the first licensed Crisix pizza available in over 20 pizzerias across Spain. In autumn 2021 Crisix did two European tours and were among the very few bands that toured during that hard period. They released a mini-movie, the first video game, and the first band-written cookbook 'Speed metal kitchen of doom'. Crisix are great representatives of new thrash and mosh generation. 'Full HD' will be out on 15th April 2022. Crisix will promote it with a European tour on March, 3 special shows in Spain, before heading to 20 days 'Hellfest Warm up' tour with french Tagada Jones. On June 24<sup>th</sup> 2022 Crisix will perform at Main Stage of already sold out Hellfest and selected summer festivals.

'Full HD' is a world-class handmade thrash masterpiece. It is showing Crisix in the best shape combining the Crisix invented characteristics mixed with traditional metal and thrash. The album has all that every mosher needs. 'Full HD' was recorded in Barcelona and mixed and mastered in the USA by Pete Rutcho (Havok, Revocation). The album cover was done by Joel Abad.

Put your 'Full HD glasses' on. It is time.

This album will drive you through different metal spheres, with one common thing- Mosh. From deadly serious thrash of 'The Many Licit Paths', Bay area inspired 'Extreme Fire Hazard', crossover of 'Full HD', moshing against negative believes with 'Macarena Mosh', thrashing rager 'Speak Your Truth', inspirational Euro melodic vs Bay area speed masterpiece 'Beast', humorous speed metal in 'John Was Born for Metal', Japanese inspired thrash missile 'Shonen Fist', new thrash hymn of this generation 'W.N.M. United' with special guests and epic ending with Catalan witchcraft 'Boc de Biterna' and Spanish DNA infused 'Escape the Electric Fate'.
